EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. Authorization for this examiner's amendment was given in a telephone call to the examiner by Arthur Kluegel on September 27, 2005.
3. The application has been amended as follows:
In claim 34, "claim 29" was deleted and - - claim 1 - - was inserted.

REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance:

The closest prior art is considered to be Sato et al. (JP 04-335087), which discloses an organic electroluminescent device comprising naphthacene derivatives. Sato et al. fails to exemplify specifically substituted naphthacene derivatives as set forth by the claims. Applicants have compared the closest naphthacene derivative compounds exemplified by Sato to the inventive naphthacene compounds at page 39 and Table 1 of the specification. The comparative compounds according to Sato et al. fail to show maximum wavelength peaks within the claimed range of maximum wavelength for the derivatives. As stated by applicant in the remarks dated July 13, 2005, "By contrast, the compounds included within the invention exhibit the desired maximum absorption and are generally comparable or better in efficiency." Applicant has shown unexpected results for naphthacene derivatives as very specifically recited in the claims

when used as a dopant in electroluminescent devices. Accordingly, claims 1-23, 25-28, and 31-34 are allowed.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
